The School Of AI

DEEP VISION

Phase I
Basics
Neural Architecture
Regularization
Advanced Convolutions
Receptive Fields
Data Augmentation
Super-Convergence
ResNet
Face Recognition
Transfer Learning
GANs
Variational Autoencoders

Phase II
Word Embeddings
Recurrent Neural Nets
LSTMs & GRUs
Attention Mechanism
Reinforcement Learning
Basics
Policy Gradients
Deep Q Learning
Actor Critic Models
DDPG
TD3

Certificate of Completion

IS PRESENTED TO

Thamizhannal Paramasivam

FOR COMPLETING THE **Phase 2** OF
Extensive Vision AI Program 2019-20
